Goals

I`m a beginner Frontend developer, and looking for a company, where I can increase my skills due helping the employer meet its own goals. I`m interested in learning new methods and technologies that helps me to grow as a Frontend Developer.

I`d like to become a member of an experienced team, either big or small, in the role of Frontend Developer.

Knowledge:

Basic HTML5, CSS3, JS, JQuery, DOM API, Gulp, SASS, Git, Photoshop

Work experience:

My Github account: https://github.com/Mistok
